Who am I?

I'm Ivo, a passionate software engineer with a strong foundation in programming and a knack for optimizing solutions in the world of backend development. I thrive on creating efficient and robust software systems, from crafting elegant algorithms to building scalable databases and troubleshooting complex issues. Continuous learning and staying up to date with industry trends are integral to my journey in tech, and I'm dedicated to expanding my skill set and collaborating with diverse teams to transform ideas into high-performance software.

Outside of my professional life, I'm an avid traveler and sports enthusiast. These passions provide me with a well-rounded perspective and serve as a wellspring of inspiration that often influences my work. Family and friends are essential in my life, and I cherish the time spent with them. I'm also dedicated to giving back to the community and making a positive impact on the world, whether through mentorship, open-source contributions, or other initiatives. I'm committed to leaving a meaningful mark and contributing to the tech community and beyond.

Experience

What I do

As a backend engineer at SIBS, my role is pivotal in the development and maintenance of the robust technology underpinning our innovative payment solutions. I design, implement, and optimize the core systems that process payments and ensure the reliability and scalability of our payment platforms. Collaborating with cross-functional teams, I focus on creating seamless, secure, and high-performance payment experiences. My expertise in programming, databases, and distributed systems helps SIBS to lead in the ever-evolving payment industry, providing businesses and consumers with convenient, reliable, and secure financial transactions.

With expertise in Java and Python, I have experience in databases, frameworks (Spring and Django), APIs, cloud computing basics, making me a versatile backend engineer adept at addressing diverse technical challenges.

Free time Hobbies

In my leisure time, I have a diverse set of hobbies that keep me engaged and fulfilled. I'm an avid football enthusiast, finding joy in the exhilarating thrill of the game. Regular visits to the gym not only keep me physically active but also serve as a source of motivation and stress relief. I'm also a passionate traveler, always seeking new adventures and experiences in different parts of the world. Exploring different cultures and landscapes brings me a sense of wonder and enrichment. Additionally, I have a penchant for studying movies and series, delving into the art of stoot delling and cinematography which allows me to appreciate the finer.

the art of storytelling and cinematography, which allows me to appreciate the fine nuances of the entertainment world. These hobbies collectively add balance and enjoyment to my life, helping me stay active, curious, and culturally enriched.
